Washington, Sept. 27.

The Navy Department has received information of the arrival of the United States is earner Mahauka, from Tampico via Rio Grande and Galveston, at Yennaccia, on the 21st inst.

Commander Cushman, of the Mahaska, reports that American interests have not suffered by violence from either of the contending parties in Mexico and that no vessels of war of the Imperialists had appeared off Tampico or the Rio Grande, ond no apprehensions of a blockade were entertained.

Washington, Sept. 27.

Grande, and no apprehensions of a blockade were entertained.

The National Intelligencer of to-day says:
Samuel Tyler, of Maryland, one of the counsel of Juli Davis, had an interview with the Attorney-fement yesterday in regard to the trial of Davis. We have not heard what the result of the interview was, but suppose it was in accordance with a lat we learn from the best sources of information, viz., that Judge Underwood and Chief Justice Clinse have come to the conclusion that because of the legislation of the last Congress the adjourned Rourt cannot be field next month, consequently the case of Davis with all others must be postponed to a future day.

Gen. Sweeney publishes a card declining to take any part in the proceedings of the Fenion Hyotherhood.

A man named Joseph Gorman was shot, it is supposed tatally, by the proprietoress of a bagnio in Brooklyn last night, named Margaret. Nealy adias Celeste Carbart. She is under arrest. No cholors deaths are reported to-day. Morgan I. Harris has been appointed Collector of Internal Revenue for the Eighth District, located in this city, cree Geo. P. Pittuan, removed. The cricket match was continued to-day women America's last wheter fell for 63 and St. George's for 45—hoth first limings.

The Episcopal Diocescan Convention reassembled this morning in St. John's Chapel.

The reports of the Trustees of the Episcopal Fund was read. It appears that the accumulating fund added to the disposable fund now exceeds one hundred thousand dollars, the interest of the fund to be obtained for the support of the Bishop. The report sets forth that the interest on this sum will not support the Bishop and yay the taxes on the Episcopal residence.

Longress, at the late session, authorized the Secretary of the Trensury to sell such of the exempe cutters as are not adapted to the service. The Department will accordingly soon dispose at public auction of six of the secamers which were built in America, suitable for the war and evil service. There will then remain 19 revenue cutters, steamers, six of which are on the lakes, and nine sailing cuttous. The number of the latter is to be increased by eight, proposals for the building of which have been invited. Soilling vessels are to be complayed only where they were menter the required service, while their use will materially decrease the expenses of the service.

will materially decrease the expenses of the service.

Recently a delegation of prominent Southern husiness men, must of them cotton farmers and planters, visited Washington to endeavor to obtain a modification of the existing rules and relations under which cutton is transported to murket, the revenue tax thereon paid, and itself shipman to domestic ports. The Secretary of the Treasury to day referred the subject to the Attorney General for his apinion.

A Herald Washington special says: The Countissioners of the Freedmen's Bureau has e just received a communication from Major-General P. H. Sheridan transmitting the following information in regard to the nourder of Captain S. G. Butta, who disappeared a few days stace:

Buvet Major J. Cronies eports that the remains of Capt. Butts, ho has overy reason to believe, have been found about four miles from Mr. Weeks' pisntation, on the Natchitocless. Butts stopped all night at Weeks' house on Maturday, July 8th. The skeleton found exactly corresponds with the description of Butts. Two of the front teeth were broken, and gold shirt stude or sleeve buttons, but Major Cronie does not remember that he were studs. From the description of the wound the bull seems to have passed

Cleveland and Pittsburgh. Nothing shows better the drift of public senti-ment than the two so-called Soldiers' Conven-

ions, the one at Cleveland, under the auspices of the President, and the other at Pittsburgh, to enlorse the late Congress. The former was backed up by the whole power and patronage of the Presdent, and was a lame and impotent affair. The ank and file of the Union army had no part of lot in it, while the great soldiers of our army stood aloof from its councils. They galvanized Sen. Wool, a superamuated and retired officer into a little bitef life for the occasion, and got len. Ewing, of Kansas, to speak a piece, for which latter performance he has since received the appointment to a foreign mission. But in fact the Convention was engineered by Gen Ronsseau, of Kentucky, one of the chivatry, who rus expelled from the last Congress for playing the bully, and by Lew. Campbell and Doolit tie, the latter both civilians, and who had no more business there than they would have had in conneil of war before Petersburg. The show was perfectly transparent. Scores of gallant men whose names had been attached to the call with out their consent, repudiated it with indignation Cleveland gave the Convention "the cole shoulder," and only the landlords profited by the And so, disgusted with itself, and only furnishing amusement to the adversary, the Convention expered, having neither numbers, character or cuthusiasm to give it vitality b youd its session, or to exert the slightest influice upon the public mind. Turn now to the Pittsburgh Convention, and

mark the contrast. See the city welcome the ten thousand delegates with a hospitality that knows no stint or measure! See all business tt a stand-still, and the gay and brilliant decora tions of the buildings, almost universal, the only notable exceptions being the Postoffice and the newspaper offices which support "My Policy." and at night an equally unusual litumination.

And there were the "Boys in Blue" from all the loyal States, the reterans of our four years' war fresh from the battle-fields and prisons of the South. Their name is legion. The men who ed them, and whose names have become historiwere there. It is proper that the men who fought the war should have something to say as to how it shall be settled. The President has breatened another civil war unless he can be permitted to usurp and exercise the legislative melious of the Government. In such an event the President would find that his attempt to con tral the bayonets of the loyal North would be as important as his attempt to control their bullets This is a government of and for the people, and even the President of the United States must have, and are a citizen of the United States, go to

There is but little more than one week working time left before our election, and theretore the greater need of promptness in organization and energy and enthusiasm in the work to be performed.

We don't imagine that these Democratic sponters will carry much weight with the Republicans of old Crawford. In "Dixie" they might be appreciated.

PERSONAL -The Meadwille Republican of Thes day says: Among the visitors in town yesterday were W. W. Bloss, Esq., of the Titusville Hon-ALD, and our good friend Major Matthews, or Titusville, formerly of the First Pennsylvania Artiflery, a good man and true. Both of those gentlemen fought valiantly for the Union, and car on their persons marks of the conflict .-They were on their way to the Pittsburgh Con-

"PETTIS DOING THE PRESIDENT'S DIRT WORK."-Pettis stands well with our apostate President. The other day he went to Washing ton and got an obnoxious individual removed rom the Assessorable in Meadville. Pettis' services in trying to defeat Figurey and elect McCal-mont, are fully appreciated at Washington.

PRESIDENT LOOMIS, of Meadville, was among recovering from his injuries.

issue of their plans, seem to be in nowise discouraged nor to have desisted from efforts for the liberation of Ireland and the lavasion of Canada, They claim that it was not- for want of men and naterial that they failed, but because Johnson stood in Craven fear of England and has no sympathy with the frish in their aspirations for Na

Politically, the President made a serious mistake, and one too which can never be repaired. Had be equiched the organization in embryo, o given official notice of his intention to do so, be night not have escaped criticism but he would never have been visited with denunclation an malediction for the spent treasure and bloodshed of those who were led to believe from his silene that he would not interfere with the Fenior But more recently the President, by directing all prosecutions to be stopped against t breach of the neutrality law, show that he would conciliate that formidable organi zulion. The course pursued by Johnson toward the Femans, is on a par with his treatment of rebels. Formerly treason must be made odlous, and treitors punished. Now, they must be forgiven, have for leited no rights and must be restored to power. And so with the Fening and must be maintained; and then, those whom te alleges have broken them and who have been indicted for such offences in consequence, he will not have tried, but sets them at liberty.

Never was a more perfidious and a more vacil lating course pursued on public questions than by President Johnson. He is "everything by turns and nothing long." It is very apparent however, that Fenianism still has a compact and rganized body, with an unsubdued and unterrilled spirit. Canada is again in trepidation, and the signs of outbreak, if not of invasion, of our unhappy neighbors show that "breakers are shead." This time, however, more secrecy is observed by the leaders as to their operations, or their plans, and it is rumored that the two facommon treasury and a common leader.

Reno Raitroad in Limbo

An injunction has been placed upon the Reno Oil Creek and Pithole Railroad, by the Farmers and the trains between Reno and Rouseville have stopped running. Many of the oil shippers who have heretofore made their eadquarters at Reno, have removed to Oil City and to other points.

AARON H. R. A. CHIPTER, No. 207, of this elty, is an institution of the Masonic Order that has lately been established. It already shows a goodly list of members. The officers' regaliaare far more costly and beautiful than those or dinarily in the possession of Chapters. We were shown, yesterday, the serl. The device represents filling barrels with crude petrolium from tanks, near which are derricks and wells. Surrounding this are two milled circles, between which are the words: "Amon H. R. A. Chapter, No. 207, Timeville, Pa."

IMPORTANT TO BUSINESS MEN ON OIL CREEK By referring to our advertising columns this morning, it will be seen that the Second National Bank of this city, have decided to keep their doors open for the transaction of business from 6:30 p. m , to 7 o'clock p. m This is expressly for the convenience of rarties doing business the 630 p. m. train. It is a move in the right direction and no doubt will be duly appreciated. The Bank wishes it to be distinctly understood that this is the unty hom, outside of regular hours from 10 a, m. to 3 p. m., when they will open their doors for husiness,

MR. CLEMENT, the generalissimo of the City Gardens, deliberately, with intention, prepense and aforethought, deposited in our sanctum yesterday, for the editors' use, what might be called a significant present, a mammoth cabbage He would intimate that the law of opposites prevalled in this token, and not that "every part strengthous its counterpart." Anyhow, we are not going to quarel with Mr. G., but try whether a cabbage that weighs thirteen pounds is solid dear through and good, whether as cold slaw or

INTERESTING TO ADVERTISERS: In our colmuns this morning will be found the advertise nent of C H. Harris, the author of the History of Petroleum Centre. As Mr. Harris will put lish an edition of two thousand copies, tacrdunts, manufacturers, mechanics, &c., will not fail to see that this work furnishes them a rare chance for prolitable advertising. Mr. Harris will add about sixteen pages of advertisements to his book. Those who wish to avail themselves of this opportunity will do well to ealt on Mr

Harris early. JUDICIAL CONFEREES .- The judicial conferees for Mercer and Venango counties are now in sea sion in Meadville. The conferees from these two ounties make few days ago, and after a few days' sylvagia State Fair, to commence at Easton, on session broke up without coming to a choice. A new set was chosen from each county, who or-

What will the President Dot In his message respecting the Constitutional Amandment now before the people, the President said: "A proper appreciation of the letter and spirit of the Constitution, as well as of the interests of national order, harmony and union, and a due deference for an enlightened public judgment, may at this time well suggest a doubt ether any amendment to the Constitution ought to be proposed by Congress and pressed

The tenth plank of their platform endorses the resident, and concludes with these words : "We tender to him in the discharge of his high and re-Well, the President thought no amendment ought

to be made while the Southern States were not fully repretented, and the Convention sustains that nolley. But if the Fresident follows the advice of his new Southern triends and concludes to favor the amendment, what will the Northern supporters of the Convention do? Still support n, and thus abandon their own ground and leave their amiable rebel friends out in the cold? It must come to this it the President changes front and they still cling to him. The President i thus placed between two fires and so is the Convention also. If the President favor the amendment, he will do however late, a patrioticaet, but he will be attacked in front by his former friends in the of new and ingenious inventions will be exhibited.

He cannot be successful and be "consistent," and when dignity and coned by the people? What is there to attach them to the ruler who is placed over them? If the course suggested by the Herald is followed by him, it will only be because he must know that his own "policy" is abhorrent to our citizens, Great sins require great atonement. To be obliged to pursue the course ulluded to would involve a severe punishment and yet a just pun-lahment. He would quit his scheme on account of its atter impracticability, not because it was inherently wrong. The people believe it was inherently wrong, and a change in the President's course would not necessarily involve real repentance on his part. We are hard as cliticas, solidars,—and I remember in these, and perhaps our distinguished friend, the Chairman of the Committee on Permanent Organization, will also remember the time, in some of the rathes dark days of 1803, when it was debated in this country whether or no the army which seemed able to save the Republic, could mader say circumstances be made the tool of any chestels; have out of the army to destroy those liberties; and I know that there were men in the Greis. With, there were men erverywhere to apring pa, and my, "Soldlers of the American Republic are clinion first and solders afterwards"—that he precipited that their paransons duty is the duty sley owe to their country—that he precipited that their paransons duty is the duty sley owe to their country—that he precipited the formation of the American Republic are clinions first and solders afterwards"—that he paransons duty is the duty sley owe to their country—that they have bound themselves and pledged their lives and their honor to the support of the Government against all his encusies, looked stitke at they have been precipited. If any few within or without, whether he is a military mass, or whatever may be his political acadiment, should stitke at the perpetuity of this nation, the army of the Republic will be found arrayed as one man against all such bore not only our commade of the volunder army and volunder may, but also our comrades of the regular army and reg.

also our comrades of the regular army and regular many.

We have come to thank food to day that although there are instances in which men who have faithfully served the country through the war may have been bought, or occupy such unfortunate positions, that they may seem to have been bought by the hope of preferment, but the great mass of all those who have worn our unform, whother it has been the uniform of our Boys is Blue on its down on the contract of the principles which they were fighting for during the war. [Applause.] The old proverty you know, suys that the exception proves the rule; and so I think that we, at least, who liet had only in the stray of exceptions has been among those who have worn's our, uniform, and who do not now stand, with us on the great questions which we have worn our uniform, and who do not now stand, with us on the great questions which we consider so important—I say that we, it least, are prepared to avow and prove that they are only such as pake most positive proof of the rule. Applains.] As either soldiers, then, we meet, determined that what has been done during the war shall continue to bear its fruit, that the labor and this following the characteristic and the following the continue to the water, that the Union which our fathers have taught as

and the foll and the blood shall not be wested, that the Union which our fathers have tunght us to love with patriotic devotion shall extremine to exist and grow more and more viperous upon free principles. We recognize the fact that about the Union of these States is clustered oil those causes for patriotic devotion while in other lands may be concentrated about families and the powers of Government. That spirit of loyalty and attachment, means with us everywhere not attachment, means with us everywhere not attachment, means with us everywhere not attachment to appear of all of the offices that may represent the Government of the country, but is frepresents attachment to the online, not attachment to appear of all of the offices that may represent the Government of the country, but is frepresents attachment to the online, that is frequently to our regret, we have had forced upon us a recognition of the fact that we are placed face to face with some of those whom we have heretofore delighted to honor. With many of us is was a sore trial to believe that any man who had done good servicedn camp or is political action, is levil life during this crugitle of four years could prove false to his principles. It was a severe trial to us to believe that it was possible that pledges, given, principles stated, docrined a vever trial to us to believe that it was possible that pledges, given, principles stated, docrined a vever trial to us to believe that it was possible that pledges, given, principles stated, docrined a vever trial to us to believe that it was possible that pledges, given, principles stated, docrined a vever trial to us to believe that it was possible that pledges, given, principles stated, docrined a vever trial to us to believe that it was possible that pledges, given, principles stated, docrined a vever trial to us to believe that it was possible that pledges, given, principles of the confidence of the substitution. It was not please for the substitution in the trial to the terre tools of a despotian—lea the Union must and would be preserved. I say the ettisen soldtery of this country recognizer the Courses of the United States as the repre-sentative-tionerament of the country. [Ap-

I think I only interpret the scaliment of all my commutes, whom I say we betteve another thing to be bree and this lat, that this Government in feet of the country (the Representatives and Sensors. of the country (the Representatives and Scantors of the people, in Congress necembled, now existing as an organized body, recognized by us and by the world, as the Congress of the people, steine as a six persons who may lightfully, by the powers gives them by the people, determine the mode, and manner in which their successors shall take their states. In other world, that it is only by the peritheset section of the law-making power and in obedience to the laws as they exist in present that there can be any provision made with regard to the organization of a succeeding Congress. And was say that if every one within the Union—those high in authority as we has at he humblest citisen—will thus submit themselves to the law of the land, there need be no trouble.—An appeal to the citizens of the country is always open to those who are diseasisfied with the existing condition of things.

For Ploneer Ron and Petroleum Clattles—Control—
A. Dunn and Lavi Massey.

Col. E. A. L. Roberts—Dear Sir. Yours of the 17th Roberts—Lear Sir. Yours of the 17th Instant, whiley for Information as to the results from the considerable of the Roberts Torpedo in various wells on the farm, is at hand, and we take great pleasure in making the following statement, bened upon our own observation and upon information obtained from various persons owning introcests in the wells mentioned below.

First. The Tart Homestead Company laws in a Targetone supplied in the Devine and Kungbury wells. Of these two wells one had been flowing and the pumping nearly 128 burnel, kakes the bust beyond the control of the state of the supplied of the Torpeda, both they had been to the work of the Torpeda, both and the control to daw and reindeed about 100 burnels per day, at which rate they said containe.

Second. Registme well. This well pumped at its highest point about 40 barrels per day, decreased to about 30 barrels, and supplied to the work of the Torpedo Is commenced to flow, and is now flowing from 100 to 200 barrels per day and blanded as well. This Torpedo increased it to bland. So arrels.

Third. The Binnett well. Had purented as high as 80 barrels, and had decreased of the state of the st

cation that it will soon flow, as it is increasing both in the and off.

There other wells in the same neighborhood have been brought up from pumping, in the augregate about 16 harrels, to producing over 100 harrels per day, and harrels, to producing over 100 harrels per day, and therewo are pumping. They will, to all appearances, reach a much righter point.

We believe there has not been a single exception on this farm where your Torpedo has not grantly horaffled the well openied upon. All have been marked successes. Mr. Harrelt states that in his well the entire expense was regard in two days, and he believes all that they offer the surface of the meaning of the surface of the Torpedo and tooghor, is fully 100 here. We have the day of the third that the control of the Torpedo, and 1000 per cent. over the product at the time the Torpedo, and 1000 per cent. over their points of the trop of the Torpedo, and 1000 per cent. over their points at the time the Torpedo and 1000 per cent. over their points at the time the Torpedo and 1000 per cent. over their points at the time the Torpedo and 1000 per cent. over their points at the time the Torpedo and 1000 per cent. over their sould be successively in the highest degrees.
